**2021-01: Urging the O'ahu County Democrats to endorse the Digital Equity Declaration adopted by the Broadband Hui and take steps to support its goals**

Whereas, The onset of the COVID-19 pandemic and the need for social distancing caused many in-person services to shut down; and

Whereas, Digital access became critical for essential services and participation in many aspects of the economy and community life; and

Whereas, Residents who lack adequate broadband infrastructure, internet-capable devices, affordable high quality broadband service and digital literacy are unable to access services or participate in activities that require internet use; and

Whereas, The lack of digital access and literacy is especially problematic for those living in rural communities or who are socioeconomically disadvantaged; and

Whereas, During this time, individuals representing government, business, education, and non-profits from within the state and nationally, came together to discuss issues concerning digital equity and formed the Broadband Hui; and

Whereas, The Broadband Hui created and adopted a Digital Equity Declaration; and

Whereas, The Digital Equity Declaration sets forth goals to enable all Hawai'i residents to use digital resources to be connected and successful in their lives, including access, literacy, and livelihood, so that Hawai'i residents will have access to quality internet and training and support to use technology, and be able to participate in education, health, government, commerce, and culture with those digital resources; and

Whereas, The Digital Equity Declaration also sets forth goals for government, healthcare, culture and art, education, and business to help build structures to ensure that resources and services are available to all residents and communities; and

Whereas, Digital Equity will benefit our people and communities, our economy, and our city and state; now, therefore, be it

**2021-02: Recognizing outstanding performance of Sharlette L. Poe, U.S. Census Bureau Partnership Specialist-Hawai'i**

Whereas, The Census Bureau's mission is to serve as the nation's leading provider of quality data about its people and economy; and

Whereas, The decennial census counts the United States population and households, providing the basis for reapportioning congressional seats, redistricting, and distributing more than \$675 billion in federal funds annually to support states, counties and communities' vital programs; and

Whereas, In fiscal year 2016, Hawai'i received \$3,682,543,845 through 55 federal spending programs guided by data derived from the 2010 Census, the 2020 Census will determine federal funding to the states, and fair and equitable distribution in future fiscal years; and

Whereas, The O'ahu County Committee passed a resolution to support the 2020 Census and became a Community Partner through its Affirmative Action Committee, Census Subcommittee with the Census Bureau in Hawai'i through its Partnership Specialist, Sharlette L. Poe, who developed and executed a plan to assure full participation in the Census Bureau's first time to accept responses online, by phone, or mail; and

Whereas, Sharlette L. Poe, personally and through her staff, substantially engaged attendees at nine region legislative priorities meetings across O'ahu held by the O'ahu County Committee October through November 2019 to speak, answer questions, provide brochures, and explain how "Your 'Ohana Counts" in the 2020 Census; and

Whereas, Sharlette L. Poe kept engaged with the Census Subcommittee throughout 2020 to guide efforts in the "Kick-Up" campaign and "Social Media Blitz" so more people in Hawai'i, despite COVID-19 pandemic restrictions, would respond to the Census, and to continuously monitor the status of self-response rates for focused contact up until the October 15, 2020 deadline; and

Whereas, Based on the collective efforts of many citizen's groups, members of Complete County Committees, and community partners working with Partnership Specialist Sharlette L. Poe, the state of Hawai'i counted 99.9% of households through self-response and by Census enumerators; and

Whereas, Sharlette L. Poe continued her outstanding engagement into 2021 keeping Community Partners informed on Census data releases and available training to make the most of Census data for affirmative action, diversity, equity, and inclusion purposes; now, therefore, be it

Whereas, Marsha Rose Joyner devoted a lifetime to the struggle for equality for all; and

Whereas, Her family on her mother's side owned and operated the Afro-American, one of the largest and best-known chains of Black-owned newspapers in the United States; and

Whereas, Marsha recognized the struggle for equality was not an individual endeavor, saying, "It [civil rights] was always something that was a part of my life because the newspaper fought against discrimination for more than a hundred years. I think for most African Americans and other minorities, that was always a way of life, the struggle against this whole way of life in America. It wasn't just the South, it was all of the United States;" and

Whereas, When the United States Supreme Court decided *Brown v. Board of Education*, Marsha was one of five students admitted to Baltimore's Western High School in September 1954, even though the school's principal said, "I will never see a colored girl graduate from my school;" and

Whereas, Marsha served as the President of the Dr. Martin Luther King Jr. Coalition of Hawai'i, she was also one of the original people who fought to make Martin Luther King, Jr. Day a holiday in Hawai'i; and

Whereas, Marsha Rose Joyner was a pioneer in the Civil Rights Movement and a bold Civil Rights advocate her entire lifetime; and

*Ordered*, That copies of this resolution be transmitted to Marsha's husband, Kenneth R. Joyner, and the Chair of the Democratic Party of Hawai'i, and all elected officials who are members of the Democratic Party of Hawai'i.

**2021-04: Urging our elected officials to include the Native Hawaiian and Pacific Islander community in homelessness response planning**

Whereas, Our streets are overflowing with our neighbors without homes that may be due to poverty, substance abuse, and mental health needs; and

Whereas, In Hawai'i, 45 in every 10,000 people (more than double the national average) were homeless in 2019 according to the U.S. Department of Housing and Urban Development's 2019 Annual Homeless Assessment Report to Congress while the national average was 17 people per 10,000; and

Whereas, Most of Hawai'i's homeless population lives on O'ahu , more than 4,400 people, according to the island's 2019 point-in-time count, and more than half of these people are unsheltered, living on sidewalks, in parks and in other public places not meant for human habitation, and homelessness has steadily increased on O'ahu over the last decade; and

Whereas, The State Homeless Coordinator clarified there is a particular need for mental health and substance abuse services in addition to housing to address homelessness; and

Whereas, The O'ahu Mayor's Office on Housing issued a report entitled, "Unsheltered in Honolulu" that examined unsheltered homelessness in Honolulu from 2017 to 2020, which noted that, "the majority of all 7,496 unique individuals counted as unsheltered in the 2017-2020 point-in-time reports identified Native Hawaiian or Other Pacific Islanders at 54%, almost a third identified as White at 32%, and the remainder as multiracial or Asian; and

Whereas, The Hawai'i Housing Finance and Development Corporation (HHFDC) issued a State of Hawai'i Draft Consolidated Plan PY2021 Annual Action Plan (Plan) which provides for a five-year strategy, including a market analysis to address the housing needs of Hawai'i's citizens through the State's administration of the HOME Investment Partnerships, National Housing Trust Fund, Emergency Solutions Grant and Housing Opportunities for Persons with AIDS programs; and

Whereas, The Plan ensures that jurisdictions receiving federal assistance for housing and related needs of low-income and moderate-income families to improve the availability and affordability of decent, safe, and sanitary housing in suitable living environments; now, therefore, be it

*Resolved*, That the O'ahu County Democrats of the Democratic Party of Hawai'i urge our elected officials who are members of the Democratic Party, to study, reflect upon, and speak up in advocacy for the homeless in our community, especially those suffering from substance abuse and/or in need of mental health services; and be it

*Resolved*, That the O'ahu County Democrats of the Democratic Party of Hawai'i urge the Mayor's Office on Housing, members of the Honolulu City Council, Office of Hawaiian Affairs, and Department of Hawaiian Homelands to work with HHFDC to assure that the largest unsheltered population consisting of Native Hawaiians and Pacific Islanders be properly represented in the Plan; and be it

Whereas, Jean Fujinaga was born on January 7, 1940 in 'Aiea, Hawai'i; and

Whereas, She enjoyed writing so much that as a ninth-grader, she was hired at the Honolulu Star-Bulletin as an editor of The 'Aiea Cannus Speak and as a correspondent would visit the 'Aiea Community Association for news on the Aiea community; and

Whereas, At Waipahu High School, she was a page editor of The Cane Tassel and was a member of the Honor Society as a sophomore; and

Whereas, She received a \$180 'Aiea Lion's Club Scholarship to attend the University of Hawai'i (UH), Mānoa and thereafter she worked three summers at the Del Monte Cannery earning \$200 a year to pay for her tuition at UH without having to ask her parents; and

Whereas, She earned a Bachelor of Arts in Education at the University of Hawai'i, Mānoa, and a Master of Arts in English from the University of California, Los Angeles (UCLA); and

Whereas, She strived to achieve her Master's Degree English because of the need for Community College teachers but when she returned to Hawai'i, there were no community colleges at that time; and

Whereas, She was an instructor in English at the University of Hawai'i in the fall of 1965, and pursued graduate work at the University of Hawai'i in Educational Philosophy; and

Whereas, She received her Juris Doctorate from Georgetown University, and a Doctor of Philosophy from Columbia University; and

Whereas, Jean's thoughts included, "My roots are here in 'Aiea. I have done many interesting things in my life because I have not been afraid"; and

Whereas, Jean Fujinaga supported dozens of campaigns of Democrats from the 1950s until her last day of life on February 7, 2021; now, therefore, be it

Resolved, That the O'ahu County Democrats of the Democratic Party of Hawai'i honor the life and work of Jean Fujinaga (January 7, 1940 to February 7, 2021); and be it

Ordered, That copies of this resolution be transmitted to her brother, Paul Fujinaga, and the Chair of the Democratic Party of Hawai'i and all elected officials who are members of the Democratic Party of Hawai'i.

**2021-06: Urging the State Legislature and the City and County of Honolulu to keep suitable agricultural lands for agriculture and keep agricultural lands affordable for farming**

Whereas, Almost all the eastern half of O'ahu are designated for agricultural use amid a sea of urban and conservation land; and

Whereas, The Olomana Heights residential development is offering lots starting at \$1 million for two acres but using farmland for luxury homes is not a good thing when the O'ahu County is trying to grow more of the food it consumes; and

Whereas, Many farmers and residents of O'ahu disagree with using agricultural lands for "gentlemen estates"; and

Whereas, County-level zoning laws generally allow farm dwellings, defined as single-family homes where owners can live on the land that they farm; however, the definition is broad, it does not have to be merely an accessory to a working farm but it can be mainly a residence so long as there is some token agricultural activity going on; and

Whereas, Landowners can generally make more money using land for luxury homes rather than for growing crops causing the proliferation of "fake farms;" and

Whereas, The Honolulu Department of Planning and Permitting proposed agricultural uses for "farm dwellings" include the planting of fruit trees, vegetables and herbs, and the county ordinance allows for many other uses without a special permit, including aquaculture, composting, roadside stands, sawmills, and livestock grazing and production; and

Whereas, For a *bona fide* farmer, farmland is just too expensive given that farmers have to compete for farmland being used for luxury housing developments; and

Whereas, Fake Farm developments cause agricultural land to be divided up into small parcels, many of which become too small for commercial farming uses; and

Whereas, Larger tracts of land provide economies of scale so that farmers and ranchers can efficiently produce food and allows farmers and ranchers to diversify and fallow the land between crops for better productivity and less pest pressure; and

Whereas, Agricultural zoning efforts have to conserve parcel size into productive units in order to provide suitable, adequate farmland to maintain productive and feasible agricultural farmland; and

Whereas, Non-agricultural uses on agriculture land drive up the cost of agricultural lands making it difficult for farmers to own or lease lands and farmers need affordable housing for themselves and their farm workers; and

Whereas, The requirements that a "farm dwelling" must truly be an accessory to the farm and farm operations must produce \$10,000 annually are necessary conditions to discourage gentleman farms; and

Whereas, To improve food security for O'ahu, *bona fide* agriculture has to be protected; now, therefore, be it

*Resolved*, That the O'ahu County Democrats of the Democratic Party of Hawai'i urge the State Legislature and the City Council to preserve lands zoned for agriculture to be used primarily for productive agricultural purposes only; and be it

*Ordered*, That copies of this resolution be transmitted to the Governor, Hawai'i State Legislators for the island of O'ahu who are members of the Democratic Party, the Mayor of the City and County of Honolulu, and all members of the Honolulu City Council.

**2021-07: Supporting legislative action to end the commercial harvesting of reef wildlife for the aquarium pet trade**

Whereas, Hawai'i's coral reefs and the wildlife dependent upon them are severely threatened by the commercial harvesting of reef wildlife which is driven by the aquarium pet trade outside Hawai'i, in addition to climate-change-induced ocean warming and acidification, pollution, and sedimentation; and

Whereas, Climate change is forecast to kill 70% of Hawai'i's coral reefs over the next 30 years; and

Whereas, The aquarium pet trade targets certain herbivorous fish for ornamental purposes; and

Whereas, Fish are key for coral reef survival in the face of climate change, among other reasons because they keep algae in check and prevent it from overtaking stressed corals; and

Whereas, Commercial aquarium catch reports reveal that collection of the herbivorous yellow tang, kole, orangespine unicornfish (*umaumalei*), and Achilles tang (*paku'iku'i*) in Kāne'ohe Bay, O'ahu , dramatically increased with the yellow tang take exceeding the average island-wide take going back to 2000; and

Whereas, Coral reefs and the wildlife dependent upon marine life are a Public Trust resource "held in trust by the State for the benefit of the people;" and

Whereas, By reducing the abundance of marine life and diminishing the beauty and health of Hawai'i's coral reefs, the aquarium trade degrades the value and limits the myriad of benefits provided by these critical ecosystems; and

Whereas, Commercial harvesting of reef wildlife for sale for ornamental purpose outside Hawai'i is neither compatible with the local values and lifestyles of Hawai'i's residents, nor does it significantly contribute to the quality of life or economy of Hawai'i; and

Whereas, This highly destructive and wasteful enterprise can no longer be justified, nor be mitigated by mere regulation, given the challenges with enforcement; now, therefore, be it

*Resolved*, That the O'ahu County Democrats of the Democratic Party of Hawai'i urge the Legislature to immediately take action to end commercial harvesting of our coral reef wildlife, especially herbivores, for the aquarium pet trade; and be it

*Ordered*, That copies of this resolution be transmitted to the Governor, Hawai'i State Legislators for the island of O'ahu who are members of the Democratic Party, the Mayor of the City and County of Honolulu, and all members of the Honolulu City Council.

**2021-10: Urging the Hawai'i State Legislature to ban the sale of sunscreens that contain the toxic chemicals avobenzone and octocrylene that are harmful to human life, wildlife, and coral reefs**

Whereas, More and more research shows that avobenzone and octocrylene are life-threatening to O'ahu's reefs and human life, including *keiki*; and

Whereas, Fifty organizations, businesses, individuals, and eminent scientists, representing more than 1,000 constituents and concerned citizens have voiced their concern over these harmful chemicals which are being used and sold in sunscreen products; and

Whereas, There is overwhelming evidence showing these chemicals are unsafe and ineffective as sunscreen that are known worldwide as damaging reef toxins that irreversibly interfere with the life cycles of O'ahu's marine life, including coral, algae, fish, shellfish, sea urchins, and marine mammals; and

Whereas, Avobenzone can cause hormonal disruptions and has been shown to be toxic to marine plants; and

Whereas, Octocrylene is a chemical pollutant prevalent in coastal environments and has been found in O'ahu's reefs: and

Whereas, Research shows that octocrylene collects in coral tissue and reduces their resistance to coral bleaching, and is a hormone disruptor that has been shown to cause deformities in the brains and reproductive organs of developing fish, possibly threatening entire populations, and octocrylene has been detected in fish and shellfish that are consumed by O'ahu's residents and visitors; and

Whereas, Octocrylene affects thyroid function and delays testicular development and causes problems with female reproductive organs, and octocrylene also degrades into a chemical called benzophenone, which is a carcinogen; and

Whereas, The National Oceanic and Atmospheric Administration has found that sunscreen chemicals, including octocrylene, harm corals, green algae, mussels, sea urchins, fish, and dolphins; and

Whereas, The Environmental Protection Agency, Centers for Disease Control, American Cancer Society, World Health Organization, as well as hundreds of scientists and dermatologists, have reported that certain chemical sunscreens are harmful to many life forms, including humans, and have not been shown to decrease skin cancer; and

Whereas, The Food and Drug Administration (FDA) does not recognize avobenzone and octocrylene as safe and effective for use in sunscreens; and

Whereas, There are alternative sunscreens that are FDA approved as safe and effective, such as zinc oxide and titanium dioxide, which offer better skin protection and are less environmentally harmful; and

Whereas, Sunscreens containing octocrylene and avobenzone should be banned from sale on O'ahu based on the Precautionary Principle, which states that if an action or policy has a suspected risk of causing severe harm to the public domain (affecting general health or the environment globally), the action should not be taken in the absence of scientific near-certainty about its safety, and under these conditions, the burden of proof of absence of harm falls on those proposing the action, not those opposing it; now, therefore, be it

*Resolved*, That the O'ahu County Democrats of the Democratic Party of Hawai'i urge the Hawai'i State Legislature to ban the sale of sunscreen that contain the toxic chemicals avobenzone and octocrylene as being harmful to human life, coral reefs, and reef animals; and be it

*Ordered*, That copies of this resolution be transmitted to the Governor; Hawai'i State Legislators for the island of O'ahu who are members of the Democratic Party, the Mayor of the City and County of Honolulu, and all the members of the Honolulu City Council.
