

***BIG PHARMA: Market Failure***  
Democratic Party of Hawai'i Headquarters  
627 South Street in Honolulu  
Monday, July 10, 2017 from 6:00 to 8:30 pm

The new Health Committee of the Democratic Party of Hawai'i is screening the documentary ***Big Pharma: Market Failure*** by [www.fixithehealthcare.com](http://www.fixithehealthcare.com).

This event is open to the public, and free, although small donations to the Democratic Party of Hawai'i, - not to the Health Committee - are welcome.

*Big Pharma: Market Failure* is a 60 minute documentary which clearly illustrates why Medicare Part D must be repealed, and why HR676 Medicare For All is the best strategy to make that happen.

Furthermore, creating the political will for such a 'health care revolution' is what will propel progressive candidates to victory in the Primary Elections of 2018, and every constituency with an interest in any aspect of Human Rights needs a wave of progressive officials to get elected to all state and federal offices. That is our mission: To create the public will for our politicians to create the political will to defy the 'pharma' and 'health insurance' lobbyists will, in order to have a nation administered by officials who represent people before corporations.
